

**Partnership Lockup Vertical**

Sometimes we will have situations where we are partnering with another company and our brands need to be locked up together in a vertical arrangement. Please design new logo partnerships using the system here.

Flexcon Logo  
Flexcon Blue 100 or White

**Partner Logo Width**  
The width of the partner logo must not exceed the height of the Flexcon symbol

**Spacing**  
Height of symbol with a divider line running through the cent

It is important to note that in this example there is no divider line. This is the advised design choice while creating a vertical construction.
